Health tech startup AkosMD Healthcare acquires 72% stake in mChemist

08 December 2021 | News

A comprehensive care plan for all health-related requirements at one place

Noida-based health tech startup AkosMD Healthcare has acquired a 72 per cent stake in mChemist Global, based in New Delhi, for an undisclosed amount.

The collaboration of AkosMD Healthcare and mChemist Global will enable in significantly lowering the cost of primary care which accounts for 70 per cent of total healthcare cost.

The union will enable access to healthcare anytime, anywhere through chat, app, smart clinics, and care navigator.

“We are excited to collaborate with mChemist. The partnership aims to offer a game-changing healthcare service to individuals by empowering them with expert remote health care services at competitive prices, thereby giving them a sense of self-sufficiency and accountability for their well-being,” said Kishlay Anand, Founder and CEO, AkosMD Healthcare.
