

Aster announces launch of 455 facilities across India and GCC countries

13 December 2021 | News

Launches campaign “Care is Just An Aster Away” at Burj Khalifa

On Aster DM Healthcare's 35th Foundation Day, the organisation has announced global growth to 455 facilities and thereby emerging as one of the largest integrated healthcare providers in India and GCC, with 27 hospitals, 126 clinics/labs and 302 pharmacies¹ spread across 7 countries serving around 20 million patients annually. In India, with the roll-out of 77 Aster branded pharmacies, nine Aster Labs, Aster Clinics and Aster Home Care, in addition to the 14 hospitals, the organisation is fast expanding its integrated care network across five states.

To celebrate its 35 years of service, a new corporate logo identity marking 'Aster DM Healthcare since 1987' has been unveiled along with the campaign, “Care is Just an Aster Away” at Burj Khalifa in Dubai.

Three more Aster Volunteers Mobile Medical Services (AVMMS) have been launched in Africa, Iraq and India on Foundation Day, increasing the total number of AVMMVS units to 19 vehicles. Aster has also committed to launching four more units in Africa, thereby extending the AVMMV services to seven African countries where it is highly required. In addition to this, Aster plans to establish five Aster Volunteers Telehealth Service Centers in Africa, to support the diagnosis and treatment of the population there, through direct connection with Aster hospitals in India and GCC.
