Redcliffe Labs launches regional reference lab in Bengaluru

13 December 2021 | News

The lab provides all diagnostic test reports within 8 to 12 hours post receiving the sample

Redcliffe Labs, a unit of Redcliffe Lifetech in the US and India, recently launched a large regional reference lab in Bengaluru. The new lab is well equipped to process more than 500 tests in-house with 1000 health packages every day and other test results are processed from the central facility of the company in Noida. The lab provides all diagnostic test reports within 8 to 12 hours post receiving the sample.

The company is currently present in 40+ cities, and with the demand surge for online bookings, the company is planning to expand to around 120+ cities in the next 18 months.
