Schindler India sets up oxygen generator plant at Terna Speciality Hospital & Research Centre

14 December 2021 | News

The plant is capable of producing 98 Jumbo cylinders per day

Schindler India and Terna Public Charitable Trust have jointly launched a PSA Oxygen Generation Plant at Terna Speciality Hospital & Research Centre in Navi Mumbai. The plant will enable efficient distribution of oxygen for the needy patients in Navi Mumbai, Raigad and Thane. The plant is capable of producing 98 Jumbo cylinders per day. Schindler India had taken up this initiative as a part of their Corporate Social Responsibility (CSR).

Terna Speciality Hospital & Research Centre located in Nerul Navi Mumbai is a 400–bedded multi-speciality tertiary care hospital confidently providing comprehensive health care with the latest medical, surgical and diagnostic facilities.
