

HiMedia Labs bags CE-IVD certifications for COVID-19 testing kits

15 December 2021 | News

For the triplex RT PCR kit and Dry-swab method kit

Mumbai-based HiMedia Laboratories - HiGenoMB has received CE-IVD certifications for the new additions to our COVID-19 detection portfolio.

"Receiving CE-IVD certifications for the triplex RT PCR kit and Dry-swab method kit are two more additions in our covid-diagnostics product range. CE-IVD certifications are a mark of highly innovative but regulatory compliant research and development being carried out at HiMedia," says Dr Kavita Khadke who brings with her profound clinical expertise needed for molecular diagnostics product development at HiGenoMB.

Hi-PCR COVID-19 Triplex Probe PCR Kit (MBPCR255) triplex kit contains three genes- (N) gene, RNA-dependent RNA polymerase (RdRp) gene and internal process control.

Hi-PCR COVID-19 Detection Kit-Dry Swab method (MBT189) is an RNA Extraction- free test for COVID- 19 diagnosis which involves direct RT PCR detection of the sample with quick and minimal pre-processing steps.
