Resolve 360 wins $10,000 Nexus Startup Development Grant

15 December 2021 | News

The startup has conducted more than 6000 one-on-one live sessions to help people with a range of mental health, physiotherapy, speech therapy, occupational therapy, and many others

Resolve 360^{o}, a fastest-growing E-Rehab platform in India, has won a $10,000 Startup Development Grant by the Nexus Incubator – an initiative by the US Embassy and ACIR, that provides grants to the most promising startups with a social impact. The startup plans to allocate the grant to expand its reach, enhance customer experience and integrate advanced technologies in the app.

Incepted in Jan 2020, Bengaluru-based Resolve 360^{o} provides online rehabilitation services ranging from mental health, physiotherapy, speech therapy, occupational therapy, and the likes for patients who want speedy and sustainable recovery from an injury, surgery, pain, or prolonged illness.

It helps people restore their lost skills and regain maximum self-sufficiency while becoming self-reliant again in the most efficient manner. Its unique IP-protected approach helps reduce recovery time by 30 per cent and cut treatment costs by 50 per cent.

The startup also recently graduated from Nexus that will help Resolve 360^{o} with providing relevant connections in the health and medical industry.

It has also been recently onboarded as a cohort of India Accelerator that help the startup in raising funds for upscaling the technology and team.
