RaphaCure partners with Zeebon to foray into North East market

27 December 2021 | News

To bring in revolutionary changes in the wellness space in North East India

Bengaluru-based digital healthcare services provider, RaphaCure has entered into a strategic collaboration with North East India's largest diagnostics services provider 'Zeebon' as the company forays into the burgeoning healthcare market in this region.

With this strategic partnership, RaphaCure & Zeebon will leverage their innovative healthtech solutions to provide qualitative and affordable healthcare for people living even in the remotest areas of this region.

The entry of RaphaCure is expected to bring in a paradigm shift in how healthcare is delivered in North-Eastern states that are geographically located in difficult and hilly terrain. Apart from introducing its cutting-edge telemedicine platforms, RaphaCure will also bring in revolutionary changes in the wellness space in North East India.

RaphaCure is currently building a team of professionals in its mission to provide healthcare services in the most remote areas of India.
