

Healthcare edtech startup Virohan launches 10 new centres

04 January 2022 | News

Plans to expand upto 160 centres PAN-India by 2022

Gurugram-based Virohan, an edtech startup in healthcare, providing training for paramedical professionals, has announced launching 10 centres across the states of Karnataka, Mumbai and Gujarat in the country.

The campus launch supports the startup's PAN-India expansion plans and aggregates the healthcare workforce in the country by providing aspiring AHPs with industry-relevant education and preparing them for unprecedented challenges.

The startup has launched four centres in Karnataka and Tamil Nadu in Electronic city and Peenya in Bengaluru, and Trichy and Tellicherry in partnership with Nettur Technical Training Foundation (NTTF).

Three centres are launched in Gujarat and Mumbai each; Gujarat centres in Ahmedabad, Surat and Vadodara are launched in partnership with the International Institute of Import and Export Management (IIEM) and Mumbai centres in Thane, Virar and Dahisar in partnership with Rustomjee Academy for Global Careers.

With centres across Delhi, Haryana, Chattisgarh and Maharashtra and now Karnataka, Gujarat and Mumbai, Virohan have plans to expand to 160 centres across pan- India by 2022.
