- Was one of the 4 startups funded by Kerala Startup Mission's Seeding Kerala 2021

Founder Speaks-

"Data is the bread & soul of AI/ML. Availability of viable and clean data has been a huge challenge for us. But what is success without any challenges? The entire team works passionately and deliver innovative ideas to tackle every possible challenge that has come in our way, and we will continue to do so. Due to COVID-19, the penetration of digital health has been much higher. Connected care technologies have proven to be beneficial in helping the healthcare providers to monitor patients remotely."
