Cross Border Healthcare start-up Hospals raises $3.5 M

24 January 2022 | News

Hospals offers international health coverage to subscribers across Africa & Asia, enabling them to get cashless treatments in India & other countries

Hospals, a cross border health benefits and travel platform that enables international patients to access healthcare across India, the UAE, Turkey and Thailand, announced part raise of its Pre-Series A investment from Inflection Point Ventures, 9Unicorns, Singapore-based Wavemaker and prominent angels like Kunal Shah, Sanjeev Mishra and Razorpay founders. Existing investor Venture Catalysts has also participated in the current round.

The funds raised will be used for expanding geographically to reach $900 million in GMV, serving 1.5 million subscribers and patients to get quality medical and cosmetic treatments across the world.

The startup has already served over 22000 patients from 38 countries to get medical advice, teleconsults and surgical treatments across over a hundred hospitals in its network. Its health benefits membership, called Hospals Assured, enables subscribers from Africa/Asia to get unlimited doctor teleconsults and free surgical treatments up to $15,000 across Indian hospitals.
