Elanpro opens first experience centre in Hyderabad for biomedical sector

02 February 2022 | News

Aims to expand business in other cities and capture the market at large

Gurugram-based Elanpro (Elan Professional Appliances), one of the leading commercial refrigeration company, has announced the launch of its First Experience Centre in Hyderabad.

Spread across 500 sq ft, the experience centre is located at Madhapur. Establishing its footprint in Southern India, Elanpro is expanding its business and growing its presence across India. The newly launched experience centre will give its customers access to the biomedical sector, amongst others.

The biomedical range is equipped with best-in-class technology maintaining the temperature and efficacy of all medical products. In addition to this, Elanpro has a temperature monitoring device, 'Thingif(y),' which is put in all of its products and keeps the temperature of all units' constant.

Elanpro has launched its experience centre in cities like Lucknow, Indore and Kochi. This year, the company further aims to expand its business in other cities and capture the market at large.
