The government should have also focussed on preventive healthcare for NCDs: Indus Health Plus

01 February 2022 | Views

Amol Naikawadi, Joint Managing Director, Indus Health Plus

"The decision to open 23 tele health centres to boost the healthcare sector and make it more accessible for people who are living in the remotest area of the country is a welcome decision. However, the government should have also focussed on preventive healthcare for NCDs as it plays most important role in keeping India Healthy."
