We are extremely happy and welcome this budget: Jeevam Health

01 February 2022 | Views

Piyush Vishwakarma, Co-Founder & CEO, Jeevam Health

“We are extremely happy and welcome this budget which focuses on digital health programmes in the healthcare segment. Covid has had a drastic impact on people and it’s important to keep our mental health a priority. The government's support in launching National Digital Health Ecosystem will help in transforming the medical infrastructure in our country. We look forward to working closely with the government on this and also coming up with programs for our clients on ways to cope with mental health.”
