

Aster Labs launches advanced pathology lab in Visakhapatnam

17 February 2022 | News

The lab will soon be equipped to perform the COVID-19 RT-PCR test and will provide accurate results in less than 12 hours to patients

Aster Labs, the diagnostic wing of Aster DM Healthcare, has announced the launch of its pathology lab in Visakhapatnam, Maddilapalem, Andhra Pradesh. Aster Labs Visakhapatnam will soon be equipped to perform the COVID-19 RT-PCR test and will provide accurate results in less than 12 hours to patients.

Some of the quality diagnostic services offered by Aster Labs range from routine test investigations like blood test, urine test, stool test, biopsy test to more advanced tests on biochemistry, haematology, microbiology, clinical pathology, histopathology, cytogenetics, molecular diagnostics, and flow cytometry.

Patients can avail the home collection service from the comfort of their homes.
