

Apollo Hospitals to set up tertiary care hospital in Uzbekistan

17 February 2022 | News

The Apollo clinical excellence will help improve lives of over 60 million in Uzbekistan and neighbouring countries

Apollo Hospitals has signed an MoU with Marafon Group for setting up a first-of-its-kind tertiary care hospital. The Marafon Group already operates over nine medical and diagnostic centres. Now with this partnership with Apollo Hospitals for the tertiary care hospital, it will provide quality healthcare for over 60 million people of Uzbekistan and bordering regions of Kyrgyzstan, Kazakhstan and Tajikistan.

Apollo Hospitals will offer technical consulting, clinical excellence, commissioning and BOMA (Branding, Operations and Management Agreement) of the tertiary care hospital in Uzbekistan.

The tertiary care hospital will be built in Fergana region that will primarily focus on oncology, organ transplants, urology, neurosurgery, cardiology and high end diagnostic. The Central Government of Uzbekistan and the Government of Fergana have come together to facilitate the tie-up between Apollo Hospitals and Marafon Group.
