

Masina Hospital opens upgraded dialysis facility

03 March 2022 | News

At the facility, one can provide dialysis to 14 patients at a given time

Masina Hospital has launched a newly upgraded dialysis facility within the hospital premises. The inauguration was conducted in the esteemed presence of Pallan Shapoorji Mistry, Dr Burjor H. Antia, Jimmy Jehangir Parakh along with Dr Vispi Jokhi - CEO, Mr Behram Khodaiji - Joint CEO, Dr SN Mehra - Medical Director, Dr Gustad Daver - Advisory Board, Masina Hospital alongside senior doctors of the hospital.

At the facility, one can provide dialysis to 14 patients at a given time. Separate provision is made to attend to Sero Positive patients so that others are well protected from any infection. One private room is also provided for those seeking privacy. The facility is compliant with the requisite AAMI (Assn. for advanced medical instrumentation), ISO and NABH (National Accreditation Board for Hospital & Healthcare Providers) norms and is equipped with new modern equipment procured from well-established suppliers, with special attention for provision of technology superior Automatic Reverse Osmosis Plant.
