Lupin launches reference lab in Guwahati

29 April 2022 | News

Lupin Diagnostics will set up laboratories in Bihar, Jharkhand and Odisha

Lupin Diagnostics has launched its Reference Laboratory in Guwahati in North East India. The expansion is in line with Lupin Diagnostics' strategy to expand its presence across India and increase access to quality testing.

The reference laboratory in Guwahati has capabilities to conduct a broad spectrum of routine and specialised tests in the fields of molecular diagnostics, cytogenetics, flow cytometry, histopathology, cytology, microbiology, serology, hematology, immunology and routine biochemistry.

After Assam and West Bengal, Lupin Diagnostics is also setting up laboratories in Bihar, Jharkhand and Odisha to comprehensively cater to the Eastern region of India. These processing labs will be located in Patna (Bihar), Ranchi (Jharkhand) and Bhubaneshwar (Odisha), in addition to multiple cities across West Bengal. These labs will be connected to Lupin's franchise collection centers, LupiMitra.
