Founder Speaks-

"We want to be the learning partner of choice for tens of thousands of hospitals in India and South Asia and Middle East. We want to be lifelong learning partner for millions of healthcare professional as they navigate their career journey from campus to workplace.

Our product is incorporating AI, IOT, Blockchain technologies to include simulation training as a service, adaptive and personalized learning, as well as streamline critical talent management workflows like CNE, Credentialling and Privileging and Acuity Based Staffing.

Overall demand for talent related services – skilling, certification, standardization and fulfilment will grow even faster to catch up – we believe this will exceed 22% over the next 10 years."

- Sameer Shariff, Founder & Executive Chairman, Medlern, Bengaluru
