Omega Healthcare to hire 18,000 personnel in next one year

10 May 2022 | News

4,500 positions are set to be filled in the next 60 days

Omega Healthcare has announced its expansion in India with its recent plan to hire 4,500 professionals over the next two months. The expansion is planned for operations across Bengaluru, Chennai and Hyderabad. The company has seen significant growth in the last three years, moving up from 18,000 employees in 2020 to 26,000 in 2022. The technology-

enabled service provider plans to further strengthen its capabilities, deepen domain expertise and build new solutions, by generating employment not only in tier-I but also the tier-II markets in India.

As part of its expansion plan, Omega Healthcare is inviting graduates from any field with minimal work experience to apply for the 18,000 open positions over the next 12 months. The company’s strategy for talent acquisition is to identify professionals who have the aptitude to recognise potential process improvements, bracket trends, and have strong logical thinking and communication skills.

Nitin Barekere, VP – Human Resources, Omega Healthcare, said, “We are keen on generating employment by targeting top fresh talent both in tier I and tier II cities that include Bengaluru, Hyderabad, Chennai, Navi Mumbai, Pune, Coimbatore, and Trichy."
