

Sanskriti University opens drug discovery and development research centre

20 May 2022 | News

The centre is aimed to provide utility quality infrastructure, hi-tech laboratories to the students

Mathura-based Sanskriti University's School of Pharmacy has opened its research centre with the name 'Drug Discovery and Development Centre.' The centre will help in providing a conducive and rewarding environment for faculty and students to ignite and sustain a passion for knowledge and excellence, which will generate future leaders with innovative and creative minds.

Sachin Gupta, Chancellor, Sanskriti University said, "The centre will provide quality classroom space to our faculty and staff, students along with researchers. The centre is aimed to provide utility quality infrastructure, hi-tech laboratories, to the students, teachers and researchers."
