BD Life Sciences organises roadshows on clinical flow cytometry

20 May 2022 | News

Discussions were held on critical aspects of clinical diagnostics including standardisation, performance, accreditation, automation and collaboration

BD Life Sciences-Biosciences, a segment of BD (Becton, Dickinson and Company) recently organised the 'Advances in Clinical Flow Cytometry' (ACFC) multi-city roadshow for clinicians and physicians. Organised in Bengaluru, Dhaka, Lucknow and Mumbai, each of the ACFC events enabled discussions by experts from the clinical fraternity on critical aspects of clinical diagnostics including standardisation, performance, accreditation, automation and collaboration.

Key highlights of the discussions were:

- Case studies on Leukemia and Lymphoma as well as Minimal Residual Disease amongst others.
- Deliberation of standard operating protocols, accuracy and standardisation of flow cytometry assays.
- Importance of Quality and standardisation of assays in clinical flow cytometry.
