NHA launches online public dashboard for ABDM

30 May 2022 | News

The ABDM public dashboard displays detailed information on the core registries under the mission â?? ABHA numbers, HPR and HFR

The National Health Authority (NHA) under its flagship scheme of Ayushman Bharat Digital Mission (ABDM) has launched a public dashboard for near real-time information on the scheme. The ABDM public dashboard displays detailed information on the core registries under the mission – Ayushman Bharat Health Account (ABHA) numbers, Healthcare Professionals Registry (HPR) and Health Facility Registry (HFR).

All stakeholders can easily access the ABDM public dashboard from the ABDM website or directly here: https://dashboard.abdm.gov.in/abdm/. The dashboard captures data related to the number of ABHA generated, the number of healthcare professionals like doctors, nurses etc. registered, and digital health records linked with ABHA. The dashboard also has granular details concerning the number of health facilities like hospitals, laboratories etc. registered daily as well as cumulative to date. Also, partner-wise data of ABHA generation created and digital health records linked are made available on the dashboard in real-time. This data is further broken down into several key components that give updates on the scheme's progress in specific areas.

For Health Facility Registry, the dashboard presents the data in infographics format based on ownership (government or private), systems of medicine (Modern Medicine - Allopathy, Ayurveda, Sowa- Rigpa, Physiotherapy, Unani, Dentistry, Siddha, Homeopathy etc.) and state-wise facilities registered under the ABDM. Similarly, for the HPR, the dashboard shows the data segregation on basis of their employment type - government or private sector, systems of medicine and the states/ UT from where the applications have been received.

Besides the detailed information available on the ABDM public dashboard, the main ABDM website (https://abdm.gov.in/) has a section with all the numbers concisely. Also, the ABDM sandbox portal has a dashboard section (https://sandbox.abdm.gov.in/applications/Integrators) that shares details of the integrators/ health tech service providers/ apps that have already integrated with ABDM and are registered as ABDM partners.
