Pristyn Care acquires health-tech platform Lybrate

07 June 2022 | News

Pristyn Care plans to expand its existing health-tech capabilities and offerings in primary care

Gurugram-based startup Pristyn Care has announced the acquisition of the health-tech platform Lybrate to bring in synergies on overall healthcare delivery and foray into primary care.

In the coming days, the companies will work towards combining the business operations seamlessly. With this partnership, Pristyn Care plans to expand its existing health-tech capabilities and offerings in primary care.

The partnership will help Pristyn Care further promote excellence in the delivery of healthcare services with an enhanced pan-India footprint. Lybrate's 150 employees will be joining Pristyn Care's family. With this acquisition, Pristyn Care is looking to add doctor consultation online services, improve care effectiveness in primary care and meet patient expectations.
