Thyrocare launches 20th regional processing lab in Raipur

02 July 2022 | News

The lab is spread over an area of 3850 sq ft and can process 3000 samples in a day

Thyrocare launched its new Regional Processing Lab (RPL) in Raipur, Chhattisgarh, which is its 20th RPL in India, on the occasion of National Doctors' Day. Located in Tiara Shopping Mall in Shankar Nagar, the RPL is equipped with unique 24*7 unidirectional sample-processing systems and an automated effluent treatment plant, which ensures safe and effective disposal of biomedical waste with world-class processing for a broad spectrum of diagnostic tests.

The RPL is spread over an area of 3850 sq ft and can process 3000 samples in a day. The laboratory will cater to the testing needs of patients, doctors, diagnostics centres, hospitals, nursing homes and other healthcare facilities in Raipur and surrounding areas.

The 20th RPL of Thyrocare was inaugurated by Dr Manoj Chellani, Chairperson, Medical Disorders in Pregnancy Committee FOGSI 2022-25 and Director of Aayush Test Tube Baby Centre, Raipur.
