# Genestrings opens labs in Delhi NCR and Lucknow

09 July 2022 | News

**Out of the 10 satellite labs, the national reference lab is set up at Malviya Nagar**

Genestrings has inaugurated its satellite pathology labs at the Delhi Airport. The brand simultaneously launched nine other satellite pathology Labs across Delhi-NCR and one in Lucknow.

The labs have been developed adhering to international standards of medical infrastructure and facilities and aim for the best diagnostic solutions by providing holistic solutions for routine pathology, advanced genetics and preventive healthcare. Out of these 10 satellite labs, the national reference lab is set up at Malviya Nagar.

The 24/7 pathology lab at the Metro Building of Indira Gandhi International Airport at Terminal 3 will remain accessible for all the employees of the Delhi airport as well as the people of nearby localities in Gurgaon and Delhi.
