UPES Dehradun, Wipro GE Healthcare launch Biomedical Engineering programme

20 July 2022 | News

To bridge the existing skill gap in healthcare industry and strengthen the nationâ??s future workforce

UPES School of Health Sciences & Technology, Dehradun has signed an exclusive partnership with Wipro GE Healthcare, to jointly launch the B.Tech Biomedical Engineering programme. The partnership aims to co-design and co-deliver this programme to students during their semesters of study so that students who graduate here are industry-ready from Day 1.

Wipro GE Healthcare will be setting up a state-of-the-art skill lab for students. Upon successful completion of the modules, students will receive a certificate of completion by Wipro GE Healthcare.

Final year students will be provided with an opportunity to attend a 21-day advanced training programme at the GE Healthcare Institute in Bengaluru. Upon completion of the advance certification, students will also be provided with an internship within the healthcare industry, so that they are ready for the job from the very first day and can serve as an asset to any healthcare employer. There will be advanced ECG machines, precise anaesthesia solutions, high-frequency X-ray machines and advanced simulation monitors that will offer students a unique learning experience.
