

CortiqHealth secures angel funding worth \$1 M

22 July 2022 | News

The startup will raise a bridge round in the next quarter

Bengaluru-based startup CortiqHealth has secured an Angel investment of \$1 million from a group of marquee US investors. CortiqHealth would be raising a bridge round in the next quarter, to support the product validation and go-to-market efforts.

Its mission is to create a healthier community and aims to achieve it by democratising wellness with computer vision and deep learning.

With emphasis on technology, integration of human expertise and passion for wellness, a group of serial entrepreneurs, unicorn executives, private equity professionals, healthcare IT, wellness, and manufacturing executives, have come together to create CoHeal. It is a non-invasive, quantitative point of care testing platform using smartphones. CortiqHealth is building CoHeal, an Enterprise Wellness platform aimed at being a key enabler to healthier lifestyles, by making wellness accessible, affordable, and easy to use.
