Apollo Hospitals, Eclipse Group to set up cancer centre in Tanzania

30 August 2022 | News

To offer comprehensive cancer care right from diagnosis to treatment

Apollo Hospitals has forayed into Tanzania by signing a Memorandum of Understanding (MoU) with Eclipse Group, Africa to set up a cancer care centre in the Msasani area, Dar es Salaam, Tanzania. With this partnership, Apollo will provide healthcare services with advanced cancer care treatments.

The 60-bedded state-of-the-art cancer centre will offer comprehensive cancer care right from diagnosis to treatment. It will offer medical, surgical, and radiation treatment to cancer patients across age groups, from paediatric to adults.

It will offer best-in-class treatment and care with a team of experienced oncologists, cancer care management and some of the world's finest technology, to make quality cancer care accessible to over 55 million people in Tanzania.
