## Biotech Patenting

08 January 2004 | News

## Biotech Patenting

The EuroForum is organizing a Biotech Patenting conference from 1-2 March 2004 at Forum Hotel, Hochstrasse 3, Munich, Germany. The event will focus on legal strategies for protecting the latest innovations in a changing landscape. The conference is designed to provide the latest information through a faculty of leading in-house biotech and pharmaceutical counsel, patent attorneys and a representative from the EPO.

## Safety Biomarkers

EuroForum is organizing a conference on "Safety Biomarkers" from 26-27 January 2004 at Eden Hotel, Wolff Munich, Germany. This is Europe's first international conference dedicated solely to discussion of safety biomarkers and the key challenges in the development and application of improved biomarkers of toxicity. This event will bring together an impressive group of experts working in this field from all over the world. The conference will focus on approval process for biomarker acceptance, application of current biomarkers in clinical and preclinical studies, methods for the identification of novel non-invasive clinical biomarkers, development of bridging biomarkers, etc.
