Fibe partners with Pristyn Care to power affordable quality healthcare across India

12 April 2023 | News

Pristyn Care patients can now pay for surgeries through Fibeâ??s no-cost EMI

Fibe (previously EarlySalary) has forged a strategic partnership with Gurugram-based startup Pristyn Care to offer medical expense loans of up to Rs 10 lakhs for all elective treatments on no-cost EMI under their CareNow PayLater proposition. The collaboration aims to provide Instant Affordability to Pristyn Care patients with easy repayment options.

Through this partnership, Pristyn Care patients will get access to Fibe's interest-free financing solutions. With this tie-up, Pristyn Care patients can now pay for surgeries through Fibe's no-cost EMI.

The service is also applicable to expenses that are not covered by health insurance. The partnership between Fibe and Pristyn Care is an effort to ease financing challenges faced by many patients and their caregivers. The cost of repayment of the treatment ranges from three months to two years, which can be selected by the patient at their convenience.

Harsimarbir Singh, Co-Founder, Pristyn Care said, "Our partnership with Fibe will strengthen our patient-centric offerings and help us provide advanced medical treatments to millions of patients."
