CitiusTech continues to expand with opening of new office in Hyderabad

09 May 2023 | News

The expansion underscores CitiusTechâ??s commitment to investing in people and fostering innovation to deliver exceptional results to clients

CitiusTech Healthcare Technology, a leading provider of healthcare technology services, solutions, and platforms, has inaugurated a new state-of-the-art technology facility in Hyderabad.

This office will house talent focused on accelerating healthcare digital transformation and is the latest addition to CitiusTech's location expansion strategy to be present across all major IT talent hubs in India. The new office is located in the Madhapur micro-market area of Hyderabad and brings under a single roof the capabilities of the recently acquired Wilco Source team with CitiusTech. CitiusTech now has nine offices across seven cities in India.

Atul Soneja, COO, CitiusTech said, "As we continue to grow, our new office will serve as a crucial innovation hub for our business and is a reaffirmation of our commitment to delivering world-class services to our clients. With focus on areas like digital transformation, product engineering, cloud services, data and AI for our global healthcare clients across payers, providers, MedTech, and life sciences, our footprint expansion will provide the local talent a chance to make a difference in a rapidly expanding health-tech industry.

Since its establishment in 2005, CitiusTech has built a solid foundation as a deep-domain healthcare technology expert that caters to the digital transformation needs of healthcare and life sciences organisations worldwide.
