Health Ministry introduces SAKSHAM Learning Management Information System

10 May 2023 | News

To document best practises in health-related teaching and training

Rajesh Bhushan, Union Health Secretary has launched the SAKSHAM (Stimulating Advanced Knowledge for Sustainable Health Management), a Learning Management Information System (LMIS). This digital learning platform has been developed by the National Institute of Health & Family Welfare (NIHFW), New Delhi.

SAKSHAM is a dedicated and unified platform for providing online training and medical education to all health professionals in the country. This digital learning platform will ensure inclusive capacity building of health professionals from primary health centres located in rural and remote areas all the way up to tertiary care and corporate hospitals in metropolitan cities.

Currently SAKSHAM: LMIS is hosting more than 200 public health and 100 clinical courses through online mode. Health professionals can register themselves for these courses on the portal and get the certification after undergoing requisite training and qualifying the required assessment criteria.

SAKSHAM is an initiative of the Ministry of Health and Family Welfare (MoHFW), Government of India which provides all health-related training programmes to healthcare professionals of the country in digital mode.
