Medikabazaar Go introduces Electric Fleet to revolutionise last-mile delivery

31 July 2023 | News

Aims to lead the way in transforming the healthcare logistics industry

Medikabazaar Go (MBGO), the logistics arm of Mumbai-based startup Medikabazaar, has announced the launch of its electric fleet for last-mile delivery. As part of its commitment to sustainable and efficient operations, MBGO has added electric scooters to its fleet across all metro cities, this will be followed by a rollout across Tier 2 cities as well in India.

With the introduction of the electric fleet, Medikabazaar aims to transform the traditional delivery model, making it more sustainable, cost-efficient, and easily trackable.

By adopting electric vehicles (EVs), MBGO seeks to reduce its carbon footprint and contribute towards a greener future. The company's decision to embrace EVs aligns with its commitment to environmental sustainability and promoting eco-friendly practices within the industry.

MBGO plans to expand its electric fleet across ten major cities in India, including Tier - 2 cities through a total fleet size of 150+ vehicles. This expansion will enable Medikabazaar to offer a seamless, eco-friendly, and highly efficient delivery experience to its customers across the country.
