American Institute of Pathology & Laboratory Sciences launches second reference lab in India

16 August 2023 | News

First in Delhi, solidifying its position in North India

American Institute of Pathology & Laboratory Sciences (Ampath) has opened its first reference laboratory in Gurugram as part of its expansion plans in North India. This marks the company's second reference lab in India.

The 7000 sq. ft. laboratory is equipped with latest technology platforms capable of delivering quality reports with a quick Turn-Around-Time (TAT). The reference lab will become an independent ecosystem for Delhi and the neighbouring states in North India.

The newly launched spacious pathology centre serves a comprehensive menu of more than 2,500 tests, performed under the supervision of highly experienced pathologists.

The lab offers diagnostic tests in Clinical Biochemistry, Hematology, Flow cytometry, Clinical Pathology, Serology, Immunology, Microbiology, Cytology, Histopathology, Immunohistochemistry, Molecular diagnosis, NGS, & Cytogenetics amongst others. These services help in diagnosis and detection of various diseases affecting different organs and parts of the body that can be extremely vital for the clinician to decide on the treatment protocol.

Ampath has a Central Reference Laboratory in Hyderabad, with 14 satellite labs in different locations. It is NABL accredited (National Accreditation Board for Testing and Calibration Laboratories) and has collaborated with the University of Pittsburgh Medical Center (UPMC), one of the top ranked hospitals in the United States, which allows technical team at Ampath to work with the world’s leading clinicians to help them deliver on comprehensive lab services.
