GIA Partner Countries to host 16 engaging sessions at BTS 2023

28 August 2023 | News

US India Business Council announces the 3rd edition of India-USA Tech Conclave

Global Innovation Alliance (GIA) Partner Countries to host 16 engaging sessions and witness representations from Australia, France, Israel, Japan, Switzerland, and the Netherlands at the 26th edition of the Bengaluru Tech Summit (BTS).

The summit is scheduled to take place at Bangalore Palace from November 29 to December 1, 2023.

The GIA Partners meeting held in Bangalore on August 28, to inaugurate and recognise the participation of GIA Partners for the BTS 2023, witnessed representatives providing insights into the expected participation from their respective countries at BTS 2023 and highlighted potential speakers for the event. It is noteworthy that countries such as Italy, Peru, and Spain will participate in this precursor event to BTS for the very first time in its history, adding to the anticipation and international collaboration.

GIA Partner countries are expected to participate in the BTS 2023 in the following ways: Participation from high-level government and industry delegation; GIA partners conducting knowledge sessions as part of the GIA track; Speakers providing remarks in other sessions; Plenary/keynote sessions by renowned tech and innovation experts; Experience centres where countries can showcase the latest innovations in technology and Startup booth for showcasing their products and innovation.

The GIA Partners meet was graced by distinguished personalities, including Dr Ekroop Caur, Secretary to Government, Department of Electronics, Information Technology (IT), Biotechnology (BT) and Science & Technology, Government of Karnataka; Darshan H.V, Director, Department of Electronics, IT, BT, and Managing Director, KITS, Government of Karnataka and Jagdish Patankar, Executive Chairman of MM Activ Sci-Tech Communications, and the Event Curators, who shared a detailed event presentation encompassing all relevant information about the event.

US India Business Council announces the 3rd edition of India-USA Tech Conclave

The India-USA Tech Conclave's 3rd edition has been officially announced by the US India Business Council (USIBC). On the exciting ties of AI i.e America and India, this year's conclave will highlight the advancements in emerging technologies in IT and HealthTech. As two of the largest democracies in the world, the United States and India will explore and delve into these areas during the course of BTS 2023, fostering exciting collaborations and discussions. The key themes of the India-USA Tech Conclave will align with roadmap on enhanced cooperation on technology on many fronts. Some of these focus areas are Artificial Intelligence, Semiconductor, Quantum Computing, Space Tech, Digital Health, E-commerce and 6G.
