Anderson Diagnostics expands presence with cutting-edge branch in Chennai

14 September 2023 | News

Equipped with a comprehensive array of clinical laboratory departments

Anderson Diagnostics, a prominent name in the diagnostic services sector since its establishment in 2008, has announced the upcoming inauguration of its state-of-the-art facility in Nanganallur, Chennai.

This new diagnostic centre in Chennai is a valuable addition to Anderson Diagnostics' extensive network of centres dedicated to delivering premium diagnostic services across South India.

The facility highlights include multifaceted laboratory departments encompassing haematology, biochemistry, and immunology; cutting-edge technology to uphold its tradition of utilising state-of-the-art technology to facilitate top-notch healthcare; concentration on cancer and chronic diseases; and packages include women's wellness and comprehensive body check-ups for holistic healthcare.

Anderson Diagnostics offers PET-CT scans and 3D Biopsy Imaging revolutionising digital mammograms with 3D biopsy imaging for digital mammograms. This innovative approach enhances early breast cancer detection and improves patient prognosis.

The new facility is equipped with a comprehensive array of clinical laboratory departments, ensuring its ability to cater to diverse diagnostic needs.
