

Experts deliberate on urgent need for collaboration in pursuit of healthier planet

15 September 2023 | News

Panel Discussion held as a part of SuschemE, an event that focuses on Sustainable Chemistry

A CEO Conclave held in Mumbai on 14th September, titled "Fostering collaboration between Industry and Science to develop sustainable products & process", witnessed invaluable deliberations that are poised to catalyse the emergence of more environmentally conscious and ecologically responsible solutions.

The rich and constructive discourse at this gathering holds the potential to ignite a paradigm shift towards greener, more sustainable practices across diverse sectors, underscoring the urgent need for collaborative efforts in pursuit of a healthier planet and a prosperous future.

The Panel Discussion was held as a part of SuschemE, an event that focuses on Sustainable Chemistry.

The experts in the panel included Ravindra Boratkar, Managing Director, MM Activ Sci-Tech Communications (*as seen in middle in the image*); Dr Samir Singh, Vice President-R&D, Jubilant Ingrevia; Nitesh Mehta, Newreka Green Synth Technologies; Dr Pramod Kumbhar, Praj Industries; and Dr Sangeeta Shrivastava, Godavari Biorefineries. Biju Pillai, Deputy Editor of Chemical Weekly and HPIC India magazines, Chemical Weekly played the moderator of this session.
