

LordsMed announces launch of first pathology centre in Maharashtra

02 November 2023 | News

LordsMed is in the process of establishing centralised labs focusing on advanced tests

LordsMed, the global healthcare division of Lords Mark Industries, has recently launched its first pathology centre in Kalyan, followed by another centre in Dombivli, and plans to open a total of 10 labs in and around Mumbai by December 2023.

The company is currently targeting to establish its presence across Maharashtra and will soon foray in other states such as Gujarat and Uttar Pradesh.

With an in-house Research and Development (R&D) team dedicated to researching reagents and chemicals used in range of diagnostics, LordsMed Pathology Lab offers Thyroid Profile, Lipid Profile, Liver Profile, Kidney Profile, S. Electrolytes, Diabetes Profile, Magnesium, Ferritin, Cystatin C, Alfa-1-Microglobulin, Arthritis, ???, Vitamin, C Reactive Protein (hsCRP), Cardiac Risk Marker, Homocysteine, Pancreas Profile, ANC Profile, Triple H, Triple Marker, Infertility Profile, PCOD Profile among others.

LordsMed Pathology Lab prioritises quality and efficiency, with significant capital investments directed towards state-of-the-art equipment and skilled staffing to ensure the seamless operation of their centres. They utilise cutting-edge auto and semi-auto machines for tests, assuring both efficiency and precision.
