Phaco festival in Bengaluru witnesses launch of advanced eye care technologies

16 January 2024 | News

Three-day event conducted in collaboration with the Karnataka Ophthalmology Society and the Bangalore Ophthalmology Society

Nethradhama Super Speciality Eye Hospitals conducted one of the world’s foremost conferences on ophthalmology, Phaco Festival 2024, in Bengaluru.

The three-day event was conducted in collaboration with the Karnataka Ophthalmology Society (KOS) and Bangalore Ophthalmology Society (BOS). The conference, held at the Ritz Carlton from January 12th to 14th, 2024, saw the launch of new-age ophthalmology technologies and products by technology leaders in this sector.

The conference focused on the theme of "Ophthalmic Digitalisation & Workflow Efficiency" was inaugurated by BV Jagadeesh, a tech genius, entrepreneur, and philanthropist. More than 70 international and national faculty members, and around 1000 ophthalmologists from across India and foreign countries were a part of this event.

The Phaco Festival 2024 featured two distinguished lectures, the Gold Medal Lecture by Dr Ronald Yeoh and 'The Myth & Reality of AI in Ophthalmology' by Dr Milind Pande.

The conference provided a premium ophthalmic upskilling experience to the attendees, featuring more than twenty 3D Live Surgeries, Wetlabs, Drylabs, Masterclasses, skill transfer courses and Ophthalmic games.

The event saw the launch of innovative technologies that would further the course of treatment in the ophthalmology ecosystem. It includes EVO Viva- Presbyopic Implantable Collamer® Lens by Staar, Femtis M Plus - Super Premium Laser Lens by Teleon, iStent inject W - by Glaukos, Laser Assisted Cataract Surgery by CAPSULaser, and a state of the art Surgery Optimizer by ZEISS.
