

LV Prasad Eye Institute unveils state-of-the-art ocular pharmacology research centre

21 January 2024 | News

Bridging the gap between laboratory research and practical application in the community and at the bedside

In a significant move towards further advancement in eye care, the LV Prasad Eye Institute (LVPEI) inaugurated its new Pharmacology Research Centre, named 'Dr Chigurupati Nageswara Rao Ocular Pharmacology Research Centre' at its Kallam Anji Reddy Campus in Hyderabad, Telangana.

This transformative initiative, backed by Granules India, a leading pharmaceutical manufacturing company based in Hyderabad, solidifies LVPEI's position as a pioneer in advancing eye care treatments.

Named in honour of the late Dr Chigurupati Nageswara Rao, Former Chairman of Granules India and a distinguished surgeon from Guntur, Andhra Pradesh, this state-of-the-art centre is poised to revolutionise the landscape of ocular pharmacological research in India.

With a mission to delve into the intricacies of ocular diseases, understand drug interactions with pathogens, and pioneer personalised eye care treatments, the facility is set to make waves in the field.

The centre's ambitious goals spans from comprehending the therapeutic effects of medicines to refining drug dosages and creating innovative drugs for medical treatments. Beyond its research endeavors, the centre will serve as a hub for collaboration, playing a pivotal role in educating and training the next generation of scientists and healthcare providers.
