WTC Genome Valley inks MoU with IKP Knowledge Park to strengthen life sciences sector

15 April 2024 | News

Fostering innovation and advancing the life sciences sector in Telangana

World Trade Center (WTC), Genome Valley has signed a significant Memorandum of Understanding (MoU) with IKP Knowledge Park, Hyderabad. This strategic alliance marks a pivotal moment in IKP's shared commitment to fostering innovation and advancing the life sciences sector in Telangana and India.

The collaboration aims to strengthen and amplify innovation to scale the life sciences sector in Telangana. The MoU enables WTC Genome Valley and IKP to fuel the economic development of the region through a range of trade services, webinars, conferences, events, market access programmes trade delegations etc that help companies explore international markets.

IKP's collaboration with WTC Genome Valley, an esteemed member of the World Trade Centers Association (WTCA) headquartered in New York, represents a concerted effort to bolster trade services promotion, facilitate global connections for domestic enterprises, and orchestrate insightful webinars addressing innovation and investment prospects.

Through this partnership, IKP aims to harness the extensive network and resources of WTCA to empower local companies with unparalleled access to international markets and opportunities.
