ABLE inks MoU with Emerging Biopharmaceutical Manufacturers Network

08 May 2024 | News

To enhance global access of biopharmaceuticals by facilitating local manufacturing capacity in India

Association of Biotechnology Led Enterprises (ABLE) has announced the signing of a Memorandum of Understanding (MoU) with Emerging Biopharmaceutical Manufacturers Network (EBPMN) to promote cross-border innovation, investment, and

technological exchange in India and low and middle-income countries.

The understanding is expected to benefit ABLE & EBPMN member biopharma companies in expanding their businesses with introductions to potential business partners, clients, etc.

The MoU will (1) foster promotion technology and technology-based investment and business expansion in India and low and middle-income countries, (2) enhance the global access of biopharmaceuticals by facilitating local manufacturing capacity in India and low and middle-income countries, and (3) supporting collaborative research and development in areas of common interest between members of the two organisations.
