Rossari Biotech strengthens leadership with Sunil Nair as CHRO

08 May 2024 | News

Former Head HR - MHCV Business at Ashok Leyland, Sunil Nair joins Rossari Biotech and Group Companies as CHRO

Rossari Biotech, a leading manufacturer of specialty chemicals, enzymes, and other products for various industries including home, personal care and performance chemicals, textiles specialty chemicals, animal health & nutrition products, has announced the appointment of Sunil Nair as the Chief Human Resources Officer (CHRO) for Rossari Biotech and its esteemed Group Companies.

Based in the dynamic hub of Mumbai, Nair steps into this pivotal role with a dedication not only to lead the Human Resources (HR) function but also to oversee corporate communications. With a strategic focus, he will be instrumental in aligning with organizational goals across Rossari and its Group's diverse operational units and locations.

With a remarkable career spanning over 26 years, Nair brings a wealth of experience to his new role at Rossari Biotech. Having served as the Head of HR at Ashok Leyland Limited for eight years, he adeptly aligned HR strategies with the overarching objectives of the company.

Nair's professional journey includes diverse sectors, including automotive and garment manufacturing, immigration consultancy, and recruitment consultancy. His career trajectory has seen him undertake pivotal roles in both Dubai, UAE, and Chennai, showcasing his adaptability and expertise in navigating varied professional environments.

Mr. Nair's proficiency in strategic HR management is exemplified by his achievements in talent acquisition, organizational design, performance management, compensation and benefits, career and succession planning, and employee engagement. His adeptness in crafting and executing HR processes and policies, combined with his capability to lead sizable teams, will play a central role in propelling Rossari Biotech's growth trajectory.
