

Neuberg Diagnostics' Pathfinders 2024 highlights 'Future of Integrated Diagnostics'

22 July 2024 | News

Integrated Diagnostics is emerging as a cornerstone in healthcare

Neuberg Diagnostics, a leader in the field of medical diagnostics with a strong presence across India, South Africa, UAE, and the USA, organised its annual global pathology conference, Pathfinders 2024, on the 20th and 21st of July, 2024.

The conference was a platform to bring together renowned speakers from the medical fraternity to discuss Integrated Diagnostics - Trends Defining the Future of Diagnostic Medicine in the post-pandemic world, innovative technology caters to a larger range of diseases and a faster implementation of the same.

Pathfinders 2024 aimed to explore new age-integrated diagnostics advancements in the fields of Foetal Medicine, Oncology, Neurology, Transplant Immunology, Obstetrics and Gynecology, Inherited Genetics, and Cardiology.

Dr GSK Velu, Chairman and Managing Director of Neuberg Diagnostics, said, "With advancements in proteomics and big data analytics, the role of AI is crucial in handling vast amounts of information. The partnership between clinicians and diagnosticians is vital, emphasising early diagnosis and wellness. India's potential as a leader in this field is immense, given its strong software industry and talented professionals. By collaborating, we can set a global standard in personalized medicine."

Day 1 of the conference covered recent trends defining the future of diagnostics medicine, multiple myeloma epitomes of integrated diagnostics, Primary Immunodeficiency, Integrated Diagnostics in Tumours of Central Nervous System, Integrated Diagnostics in Colo-Rectal Malignancies, Integrated Diagnostics in Breast Carcinoma.

While on day 2 of the conference, sessions were held on Foetal Medicine, Solid Organ Transplantation, and Transplant Pathology.
