

## Karnataka Govt announces launch of State BioEconomy Report 2024

31 July 2024 | News

**In 2023 alone, Karnataka welcomed 202 new biotech startups, marking a staggering 113% increase from 2021**

Karnataka Innovation and Technology Society (KITS), under the Department of Electronics, IT, BT and S&T, Government of Karnataka, in collaboration with the Association of Biotechnology Led Enterprises (ABLE), has announced the launch of the Karnataka BioEconomy Report 2024.

The Karnataka BioEconomy experienced a significant growth of approximately 10.7% from 2022 to 2023. In specific terms, the economic value increased from \$28 billion in 2022 to \$31 billion in 2023.

One of India's leading biotech states, Karnataka garnered more than 30% of investments in the sector nationally in 2023. The state's \$31 billion contributes 21 per cent to the national BioEconomy of \$151 billion in 2023. It is only second to Maharashtra.

Bengaluru Urban dominates the BioEconomy landscape with a staggering \$15.9 billion, representing 51.17% of the total BioEconomy in Karnataka. This district's substantial contributions span multiple sectors, including biopharma, diagnostics, medical devices, and BioIT & services.

BioPharma sector showed consistent growth over the three years, reaching \$12.6 billion in CY 2023, while BioIndustrial sector exhibited steady increase from \$7.9 billion in CY 2021 to \$12.1 billion in CY 2023.

Further, in 2023 alone, Karnataka welcomed 202 new biotech startups, marking a staggering 113% increase from 2021. With a total of 1,054 startups, Karnataka's innovation hub is buzzing with entrepreneurial energy and cutting-edge research.

Looking ahead, Karnataka's ambitions are lofty yet attainable. The state aims to triple its BioEconomy to \$100 billion by 2030. Achieving this goal requires concerted efforts in scaling BioPharma contributions to \$30 billion, expanding BioAgri to \$15 billion, and quadrupling BioIndustrial contributions to \$30 billion. Embracing data science, AI, and deep tech innovations will be crucial in maintaining its leadership position.
