13th Edition of Lifesciences and Healthcare Innovation Forum to open on 13-Aug in Bengaluru

05 August 2024 | News

Look forward to having your presence at the largest platform for Healthcare & Lifesciences Innovation

NASSCOM Center of Excellence – IoT & AI, set up in 2015, is all set to open the 13th Edition of Lifesciences and Healthcare Innovation Forum (LHIF) on 13 August 2024, in Bengaluru.

Lifesciences and Healthcare Innovation Forum (LHIF) is the largest collaborative platform to bring together key stakeholders from Industry, Government, Innovation and Technology to drive thought leadership to address the challenges and defining the future of the healthcare and life sciences sectors.

Twelve editions of LHIF have been completed so far on various themes such as, “Equitable Access to Value-Based Healthcare”, “Vaccine Trails”, “Recalibrating the Care Continuum with Technology”, “Universal Healthcare – Digital Propulsion” and “Patient centricity in the Digital Age”.

This year's edition of LHIF conference is focused on the theme, “AI4Care: Shaping the future of Healthcare & Lifesciences”.

The conference brings together more than 250+ experts from the Healthcare, Life sciences and Insurance industry along with the Policymakers and Technology Enterprises and DeepTech Startups to discuss how indigenous innovation is addressing current challenges and creating new opportunities for the future.

We invite leaders from Pharma & MedTech Companies, Hospitals & Diagnostic Chains, Government Departments, Health Insurance Companies, Media, DeepTech Startups, Tech Enterprises, Investors and Academia to join us and support this conference.
