

Vaidyaratnam to collaborate with Johns Hopkins University for cardiovascular research

06 January 2025 | News

The first-of-its-kind in the history of Ayurveda

The Vaidyaratnam Group in Kerala is poised for a research collaboration with Johns Hopkins University, USA, the first-of-its-kind in the history of Ayurveda. Vaidyaratnam and Johns Hopkins University will jointly conduct research in cardiovascular diseases.

"We are excited about the new developments. Both Vaidyaratnam and Johns Hopkins University take pride in a glorious tradition that dates back centuries. Our proposed collaboration with the world's most renowned private research university will benefit the healthcare sector at large," said Ashtavaidyan Dr E.T. Neelakandhan Mooss, Managing Director of Vaidyaratnam Group.

Managing Director Ashtavaidyan Dr. E.T. Neelakandhan Mooss and Executive Director Ashtavaidyan Dr. E.T. Krishnan Mooss held discussions with university officials at the Baltimore campus. Dr Venu Rajamony, Former Ambassador of India to the Netherlands, Dr Reghu Natarajan, Ex-Director of Centre for Materials for Electronics Technology (C-MET), and Dr Shelby Kutty, Professor - Johns Hopkins School of Medicine, were also present.
