Ankura Hospitals secures Rs 165 Cr funding from Asian Development Bank

01 April 2025 | News

To establish new state-of-the-art facilities in key cities across India

Hyderabad-based Ankura Hospitals, a leading healthcare provider specialising in super-specialty tertiary and quaternary care services for women and children, has secured Rs 165 crore in funding from the Asian Development Bank (ADB).

This strategic investment will support Ankura's ambitious expansion plans and is aligned with its long-term vision to strengthen its market presence and enhance healthcare accessibility across India.

As part of its expansion strategy, Ankura Hospitals is focused on establishing new state-of-the-art facilities in key cities across India. Ankura Hospitals specialises in providing world-class care in maternity and gynecology, offering services such as normal deliveries, cesarean sections, fertility treatments, high-risk obstetrics, and comprehensive prenatal and postnatal care. The hospital also features advanced surgical solutions in gynecology, including laparoscopic surgeries and treatment for various gynecological conditions.

Also, Ankura Hospitals is providing world-class services, including advanced neonatal intensive care, all paediatric subspecialties, pediatric surgery, child development, and behavioral health for children.

With the support from ADB, Ankura Hospitals is poised to enhance its facilities, broaden its impact, and continue delivering exceptional care across India.
