Neuberg Pulse unveils integrated diagnostics centre with Ranchiâ??s first upgraded PET-CT scanner

21 July 2025 | News

To invest over Rs 100 crore to start diagnostics facilities across Jharkhand in the next two to three years

Neuberg Pulse Diagnostics, one of India's fastest-growing diagnostic chains, has launched its first State-of-the-Art integrated diagnostics centre in Ranchi, bringing the city's first upgraded PET-CT scanner. Neuberg Diagnostics entered into a joint venture with Kolkata-based Pulse Diagnostics to strengthen its footprint across the eastern region, including West Bengal, Odisha, Bihar, Jharkhand, and the North Eastern states.

The centre was inaugurated by Mahendra Singh Dhoni in the presence of Dr GSK Velu, Chairman and Managing Director, Neuberg Diagnostics; Sunaina Bihani, CEO & Managing Director, Neuberg Pulse Diagnostics and several other doctors and luminaries from Ranchi and across India.

The state-of-the-art centre offers comprehensive diagnostic services under one roof, including pathology, radiology, nuclear medicine, cardiology, gastroenterology and preventive health services. It provides over 6,000 tests across routine and super-specialty tests, along with MRI, CT, PET-CT, Digital & Portable X-ray, Advanced Sonography, Endoscopy, Colonoscopy, 4D Ultrasound, Mammography, 2D Echo, ECG, EEG, EMG among others.

With specialised doctors, stringent quality protocols, and advanced technology, the centre ensures accurate results. Additional services include home sample collection across Ranchi, health check-up packages, personalised genomics, whole-body MRI health checkup, digital smart reports, and consultation support.

"With the launch of Neuberg Pulse's integrated diagnostics centre in Ranchi, we are bringing a complete range of world-class diagnostic services from routine preventive tests to advanced pathology and radiology closer to the people of Jharkhand at affordable rates. We are proud to launch this centre at the former residence of cricketing legend MS Dhoni and happy to partner with him in this venture" said Dr GSK Velu, Chairman and Managing Director, Neuberg Diagnostics. "We are proud to introduce Ranchi's first upgraded advanced GE Discovery IQ PET-CT scanner, in a stand-alone diagnostics centre, setting a new benchmark in precision imaging and cancer diagnostics in Ranchi. Neuberg Pulse is committed to offering high-quality, affordable diagnostics backed by the latest medical innovations and trusted expertise. Our aim is to empower individuals to take charge of their health, ensure better outcomes through early and precise diagnosis, and generate local employment opportunities in the region."

Speaking at the launch, Sunaina Bihani, CEO & Managing Director, Neuberg Pulse Diagnostics, said, "The Neuberg group commits to investing over Rs 100 crore to establish diagnostic facilities across Jharkhand within the next two to three years, starting with a 30-crore investment in the first centre."
