IKP Knowledge Park inks MoU with ACCESS Health International to advance healthcare innovation

22 July 2025 | News

Cementing a new bridge between Indian and Egyptian innovation ecosystems

A Memorandum of Understanding (MoU) has been exchanged between IKP Knowledge Park and ACCESS Health International (AHI) at The Narayanan Vaghul Building, IKP Park Office, Genome Valley, Hyderabad.

This collaboration marks a significant milestone in advancing healthcare innovation and technology transfer between India and Egypt, with a focus on:

1. Innovation scouting, IP strategy, and cross-border commercialization
2. Localisation and regulatory alignment for biosimilars, oncology, vaccines, and immunosuppressants
3. Supporting Egypt’s national direction to localise Active Pharmaceutical Ingredients (APIs) and Intermediates (IPIs)

This partnership is set to enable joint IP services, regulatory capacity building, innovation scouting, and global market access for startups and researchers. It cements a new bridge between Indian and Egyptian innovation ecosystems, working together to deliver global impact in life sciences and public health.
